support on JCI's side

logistics service and
shipment of finished goods

Facial care

Day cream – a light cream with moisturizing properties. A suitable base for makeup, smoothes and soothes irritations. The sugar complex contained in it improves the water balance in the skin, optimizing reserves and preventing TEWL. Suitable for dry, dehydrated, sensitive and normal skin.

How to use: apply the cream to the face, massaging it in with your fingertips.

Night cream – a cosmetic with a rich consistency and nourishing properties. Revitalizes the skin, elasticizes and firms it. Suitable for sagging, dry, mature skin and skin requiring regeneration. Long-lasting monk fruit balances the epigenetics of the skin and restores its radiance. Prevents aging of mature skin, reduces the "tech-neck" syndrome.

How to use: apply the cream to the face, massaging it in with your fingertips

Eye and eyelid cream – effectively combines lifting, anti-wrinkle properties with effective reduction of dark circles under the eyes, thanks to Tetrapeptide-5. Multidirectional results, such as brightening dark circles under the eyes, smoothing wrinkles and lifting the upper eyelid are provided by the essence of white flowers. Moisturizes and nourishes the sensitive skin around the eyes.

How to use: apply a small amount in the morning and evening to the skin around the eyes and gently pat.

Face serum – a multi-tasking product with an ultra-light consistency. It has a brightening effect, evens out skin tone, moisturizes and lightens discolorations. Rich in antioxidants that improve skin firmness. Suitable for dull, gray, mature and dry skin. Contains vitamin C tetra, niacinamide, hyaluronic acid.

How to use: apply 2-3 drops to the face, massaging with your fingertips. Use in the morning and/or evening.

Care face cream – moisturizing and nourishing face cream that properly cares for and improves the condition of the skin. Contains Mexican aster extract, which restores radiance and uniform skin tone, reduces redness and soothes neurogenic dermatitis, protects against damage to the skin barrier. Brings relief to sensitive, dry and reddened skin.

How to use: apply the cream to the face, massaging it in with your fingertips. Use in the morning and/or evening.

Facial toner – a soothing and refreshing toner based on orange blossom water, suitable for anyone looking for additional skin hydration. It pleasantly soothes the skin after use, reduces redness and has anti-inflammatory effects. Contains deeply moisturizing saccharide isomerate and nutmeg sage. An inseparable element of morning and evening care.

How to use: spray the toner on cleansed skin every morning and evening.

Enzymatic peeling – has a smoothing effect, removing dead skin, while providing the skin with valuable active ingredients. The enzyme papain contained in the formula gently exfoliates the skin by dissolving the keratin contained in it, without causing irritation. Enriched with a complex of green fruit varieties: grapes (muscat variety), plums, apples and papaya, which increases the skin's barrier function and reduces oxidative stress, making the complexion more radiant and even.

How to use: Apply a thick layer of peeling to a cleansed and dried face, avoiding the eye area. After 15 minutes, perform a facial massage in circular motions with wet hands. Then rinse with lukewarm water. Use twice a week.

Facial cleansing foam – a velvety cleansing foam based on mild cleansing substances that effectively cleanse the skin, remove remnants of care products and makeup. Light, but at the same time rich foam gives an incredible pleasure of use and makes the face silky smooth to the touch.

How to use: squeeze 1-2 pumps of foam onto your hands. Spread thoroughly on the skin of the face, neck and décolleté. Gently massage, then rinse with warm water.

Mattifying face cream – a cream that cares for the skin, regulates sebum secretion and maintains the appropriate level of hydration. Reduces skin shine during the day and extends the durability of makeup. It is comfortable to wear and reduces the visibility of pores and smoothes the skin, giving a silky effect. Thanks to the Ku Shen root complex, it regulates the work of the sebaceous glands and provides appropriate care for oily and combination skin.

Niacinamide and hemp oil contained in the cream strengthen the skin barrier and protect against water loss, ensuring the appropriate level of hydration. Soothing and soothing allantoin brings relief to sensitive, dry and reddened skin.

How to use: apply the cream to cleansed facial skin, before makeup. For best results, wait about 5 minutes to apply makeup. You can also use it for self-care.

Face wash gel – a delicate face wash gel cleanses the skin of impurities, excess sebum and make-up. Actively supports the skin in the fight against imperfections. The appropriate gel consistency makes it a pleasure to use, and the face becomes silky smooth to the touch.

How to use: squeeze the appropriate amount of gel onto your hands, then apply to damp skin and massage for a while to dissolve any impurities. Wash off with warm water.

Make-up remover oil – a skin-enveloping cleansing oil that turns into a delicate milk when in contact with water, effectively removing skin impurities and make-up, even waterproof. It takes care of the skin's condition, especially in the case of sensitive skin and with a disturbed hydrolipid barrier. Contains natural oils: jojoba oil, plum seed oil, rice oil, sugar cane squalane and vitamin E, which make the skin soft and velvety smooth.

How to use: wet your hands and pour a small amount of oil into the hollow of your hands, rub until you create a milk, then spread on dry skin of the face and gently massage to dissolve make-up. Rinse off thoroughly with water. Use as the first step of make-up removal, in the second step of cleansing the skin use a face wash gel or foam.

Micellar fluid – a multifunctional product for make-up removal and skin cleansing, whose unique formula removes impurities, make-up and excess sebum. Enriched with soothing allantoin and moisturizing peach fruit extract. The delicate formula prevents irritation, leaving the skin clean, refreshed and prepared for further stages of care. Does not cause burning eyes.

How to use: apply a small amount of liquid to a cotton pad and gently cleanse the face, eyes and neck. In the case of waterproof make-up, hold the soaked cotton pad for a few seconds on the cleansed surface. Does not require rinsing.

Facial wash emulsion – a gentle product for cleansing sensitive and irritated skin. The unique formula effectively removes make-up and impurities, leaving a feeling of comfort on the skin. Inulin and glycopolysaccharides support the natural microflora, restore balance and help prevent redness and itching of the skin. The skin remains clean, refreshed and without a feeling of tightness.

How to use: squeeze one or two pumps onto your hands, apply to the face and massage for a while to dissolve make-up and impurities. Wash off with warm water.

Body care

Body oil – dry body oil makes the skin silky smooth and nourished. The natural emollients contained in the oil, such as sweet almond oil, rice oil, lubricate, nourish and regenerate the epidermis and protect it from moisture loss. Enriched with plum seed oil and vitamin E, it will soothe dry and irritated skin.

How to use: Apply a small amount of oil to dry skin and massage in circular motions or massage into wet body after bathing. It is also ideal for the body brushing ritual or as an addition to a bath.

Body balm – cares for all skin types, especially dry, rough skin with symptoms of loss of firmness. Coffee extract has anti-cellulite, firming and tightening effects. The prebiotic mixture will take care of the skin microbiome, restoring it to a normal state of balance. The balm absorbs quickly, leaving the skin velvety soft.

How to use: Spread the balm on clean and dry skin, then gently massage in. When performing the massage, take into account the problematic parts of the body: stomach, thighs, buttocks.

Body wash gel – a moisturizing gel that cleanses, cares for and refreshes the skin. Delicate washing substances remove impurities. The gel formula is gentle and also suitable for sensitive skin. Thanks to carefully selected active ingredients, the gel does not dry the skin or cause a feeling of tightness.

How to use: Apply an appropriate amount of gel to damp body skin. Gently spread the gel all over the body, focusing on places requiring special attention, such as armpits, feet and back. Rinse thoroughly with water.

Hair care

Cleansing hair shampoo – cleansing hair shampoo contains a mild set of cleansing substances, as well as a complex of humectants and conditioners that help to regain smoothness, facilitate combing, restore hair's natural volume, and moisturize hair strands. The chelating ingredient cleanses the skin and hair of residues of other cosmetics, making the hair more susceptible to the conditioning effects of conditioners and masks.

How to use: soak the hair, then massage the appropriate amount of shampoo in your hands and spread, massaging wash the scalp and hair. Rinse under running water. Repeat if necessary.

Hair ends serum – oil serum with vitamin E intensively smoothes hair, giving it shine. Thanks to the content of carefully selected emollients, it covers the hair strands with a protective film, protecting the hair ends. Improves hair elasticity and protects them from the negative effects of external factors.

How to use: rub a small amount of serum, one or two drops, in your hands and spread evenly on dry or damp hair ends, making stroking movements from top to bottom, then comb them with a comb.

Emollient hair mask – designed for strands of any porosity, providing nourishment and intensive care. The unique formula protects hair from frizz and static, making combing easier. Supports the reconstruction and closing of scales, restoring softness and smoothness to low porosity hair. Selected ingredients make hair gain shine and moisture.

How to use: rub a small amount of the mask in your hands, then apply to damp hair, squeezed of excess water and gently massage. Rinse after a few minutes. Apply the mask evenly over the entire length of the hair, avoiding the scalp. For better results, use a hair treatment once a week: apply the mask for 20 minutes and then rinse thoroughly.

Protein hair conditioner – dedicated to strands of any porosity. The formula enriched with a vegan version of keratin, strengthens the hair fiber and fills its gaps, thanks to which it adds volume to the hair. Regenerates and protects hair from frizz and electrification. Garden amaranth extract penetrates through the hair scales, providing peptides and polysaccharides, restoring the appropriate properties and healthy appearance. Carefully selected raw materials give the hair elasticity and shine.

How to use: rub a small amount of conditioner in your hands, then apply to damp hair, squeezed of excess water and gently massage. Rinse after a few minutes. Apply the conditioner evenly over the entire length of the hair, avoiding the scalp.

Trichological scalp peeling – removes excess calloused epidermis, impurities and cosmetic residues, providing a feeling of freshness and comfort to the scalp. Regular use of the peeling reduces redness and itching of the scalp. AHA acid mixture reduces the thickness of the stratum corneum of the epidermis and normalizes sebum production, as a result of which the hair becomes less oily.

How to use: once a week, apply the peeling evenly to the dry scalp, then gently massage with your fingertips. Leave on the skin for about 15-20 minutes. After this time, wash your hair thoroughly with shampoo, if necessary, use double washing.

Based on an experienced team of specialists, unique research infrastructure and a modern production line, the Jagiellonian Innovation Center provides a wide range of services for the cosmetics industry.

Our offer:

- contract manufacturing
- development of cosmetic recipes
- ready-made cosmetic
- formulations cosmetics and raw
- material testing consulting
